

PROGRAMME

CONFERENCE SCHEDULE:

Theme 1. IEA - Energy Research and Technology

Theme 2. IEA - Information and Communication Initiatives

Theme 3. EU Initiatives in Energy Information

Theme 4. Information Services and Users

CONFERENCE HIGHLIGHTS:

- Gain insight into the IEA perspective on scenarios and strategies for the future energy and environmental landscape;
- Learn how information and knowledge diffusion play a critical role in influencing the positive outcome of these scenarios;
- Witness how international organizations and countries have leveraged and combined resources and expertise to further information diffusion goals;
- See the concrete initiatives and resources that are now available to user communities because of these synergies; and
- Discover how users have and can benefit from these initiatives to advance energy research.

TARGET AUDIENCE:

Researchers, policy makers, academicians, cybrarians, and more

9:00 a.m. Registration

9:30 a.m. Official opening and Welcome

INETI President

**Minister of Economy and Innovation*

Theme 1. IEA - Energy Research and Technology

10:00 a.m. Energy Technology Perspectives: Scenarios & Strategies to 2050

Neil Hirst (Director, Energy Technology and R&D, IEA Secretariat)

Theme 2. IEA - Information & Communication Initiatives

10:20 a.m. End-Use Working Party: the Vision

Peter Cunz (IEA End-Use Energy Working Party Chair (Switzerland))

10:45 a.m. ETDE: A Catalyst for Energy Technology Breakthroughs: Bringing the Researcher Closer to Research

Brian Hitson (ETDE Executive Committee Chair, United States)

11:15 a.m. Coffee Break

Theme 3. EU Initiatives in Energy Information

11:45 a.m. European Commission Efforts in Energy and Scientific Communication

Peter Löffler (Executive Agency for Competitiveness and Innovation (EACI), European Commission)

12:15 p.m. DRIVER Initiative (Digital Repository Infrastructure Vision for European Research)

Leo Waaijers (DAREnet Program Manager, The Netherlands)

12:45 p.m. Lunch

Theme 4. Information Services & Users

2:30 p.m. Perspectives of ETDE Member Countries in Serving User Communities (presentations by ETDE ExCo members, (Session Chair: *Debbie Cutler, ETDE Operating Agent*))

- The Impact of Open Access on the ETDE Database
Hillebrand Verkroost (ECN, NL)
- The Oxyfuel Process or "green" Coal – a Sample Search in Databases from STN International
Silke Rheme (FIZ-Karlsruhe, Germany)
- Users in Mexico and Their Perception of the Impact of Information Gathered from ETDEWEB
Jaime Pontigo (IIE, Mexico)

4:30 p.m. Coffee Break

- Knowledge Discovery for U.S. Energy Researchers: the OSTI Mission
Lorrie Johnson (OSTI, United States)
- Giving More Visibility to Energy Research in Portugal
Joaquina Barrulas (INETI, Portugal)

5:30 p.m. Conclusions and Closing Section

6.00 p.m. *CERT Chair*

**Minister of Science, Technology and Higher Education*

(* to be confirmed)

[ETDE - Energy Technology Data Exchange](#) is an international energy information exchange agreement formed in 1987 under the International Energy Agency (IEA). ETDE's mission is:

"To provide governments, industry and the research community in the member countries with access to the widest range of information on energy research, science and technology and to increase dissemination of this information to developing countries."

[National Institute for Engineering, Technology and Innovation](#) is the State Laboratory of the Ministry of Economy and Innovation whose aim is to design, organize, and carry out R&D activities directed at companies.

The conference **Advancing Energy Science and Technology through Multilateral Information Exchange** will provide a forum between international leaders in energy science and technology, and information management visionaries on how to optimize opportunities for energy solution breakthroughs. The conference will also celebrate [ETDE's 20th anniversary](#) and include country-specific perspectives from various ETDE delegates.

INETI AND ETDE PROUDLY ANNOUNCE:

AN INTERNATIONAL CONFERENCE

IN CELEBRATION OF

ETDE'S 20TH ANNIVERSARY

ADVANCING ENERGY SCIENCE AND TECHNOLOGY THROUGH MULTILATERAL INFORMATION EXCHANGE

Lisbon, Portugal

Location: [INETI campus](#)

5 July 2007

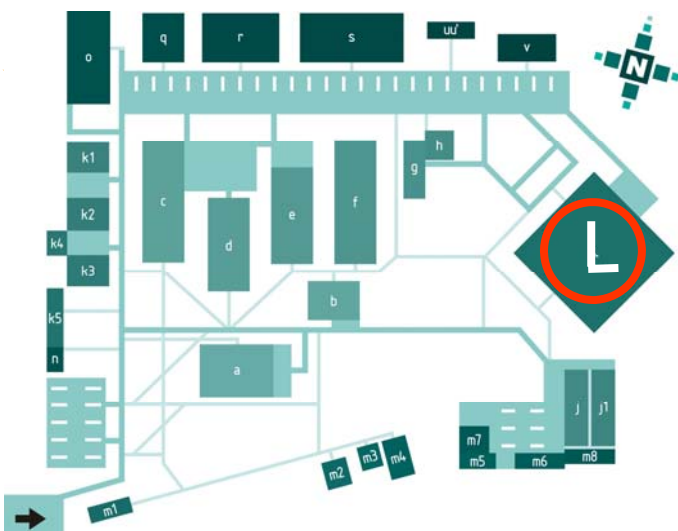

REGISTRATION FEE:

€ 150 Students: €50
(includes Proceedings, coffees and lunch)
[Registration form](#) attached.

LOCALIZATION MAP:

INETI campus, Building L
